Buy an SSL Certificate

You can buy an SSL certificate directly from a CA or their reseller. thesslstore.com is a well-known website to buy SSL certificates of reputed CAs at the lowest price. They offer SSL certificates from Symantec, GeoTrust, RapidSSL, thawte, Certum and COMODO. Visit their [Brands](#) page for more information.

To buy an SSL certificate from thesslstore.com, mouse hover on the Products menu and click on the type of certificate you want. For example, let's select Domain Validation SSL, as shown below.

The screenshot shows the SSLStore website interface. At the top, there's a navigation bar with the phone number 727.388.4240, a search bar, social media icons, and links for About Us, Support, and a shopping cart. The main header features the SSLStore logo and a grid of product categories: Brands, Products, Partner, and Shop. Under the Products category, a dropdown menu is open, listing SSL Certificates, Code Signing Certificates, Email Signing Certificates, Website Security Solutions, and Certificate Management. The SSL Certificates dropdown is further expanded, showing options like EV (Extended Validation SSL), OV (Organization Validation SSL), DV (Domain Validation SSL), Multi-Domain SSL, Wildcard SSL, and Multi-Domain Wildcard SSL. The DV option is highlighted with a red border. A green callout box on the left side of the page reads: "Browsers Command HTTP In 2018, SSL Encryption became a web standard." At the bottom of the page, there's a large heading: "SSL Certs from the Only Premium SSL Service in the World" and a button that says "Leave us a message!".

Buy an SSL Certificate

In the next page, review the information, copy paste your [CSR](#) and submit it.

You also need to validate the information. Once it is done, you will receive your certificate via email. This will be a zip file containing an SSL Certificate and intermediate certificates which you need to install on your web server.

Before installing a certificate on your web server, it is important to understand the formats and file types of SSL certificates. Learn about them in the next chapter.
